

CERTIFIED CANNABACEUTICALS™

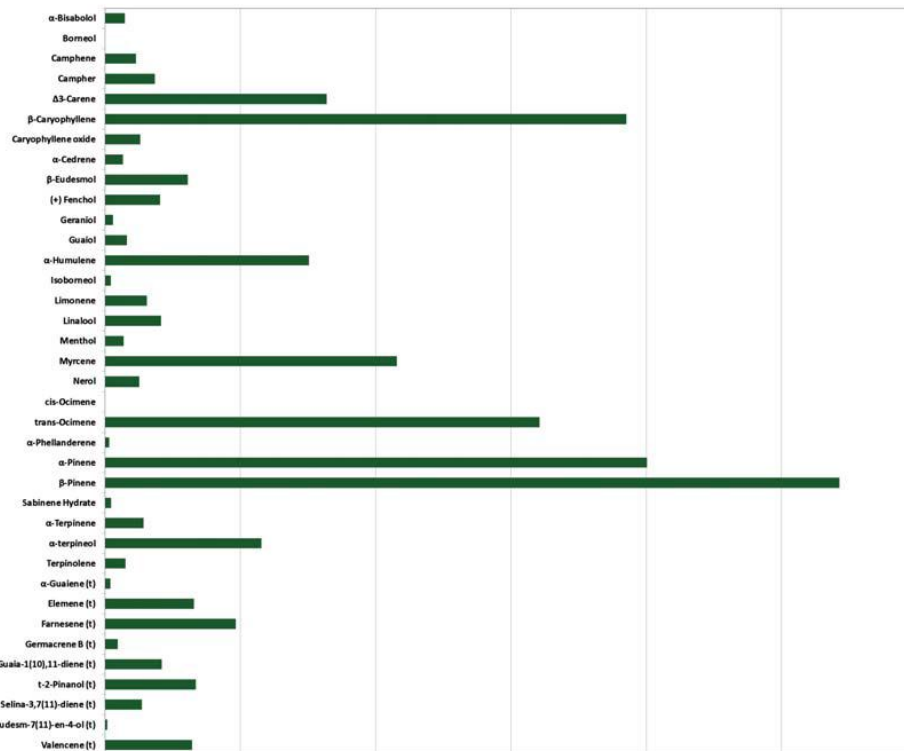

CERTIFICATE OF ANALYSIS

Analysis Performed For:

MrNice

[illegible]

Terpene	mg/g
α -Bisabolol	0.04
Borneol	<LLOQ
Camphene	0.07
Campher	0.11
Δ^3 -Carene	0.49
β -Caryophyllene	1.16
Caryophyllene oxide	0.08
α -Cedrene	0.04
β -Eudesmol	0.18
(+)-Fenchol	0.12
Geraniol	0.02
Guaiol	0.05
α -Humulene	0.45
Isoborneol	0.01
Limonene	0.09
Linalool	0.12
Menthyl	0.04
Myrcene	0.65
Nerol	0.08
cis-Occimene	<LLOQ
trans-Occimene	0.97
α -Phellanderene	0.01
α -Pinene	1.21
β -Pinene	1.64
Sabinene Hydrate	0.01
α -Terpinene	0.09
α -terpineol	0.35
Terpinolene	0.05
α -Guaiene (f)	0.01
Elemene (f)	0.20
Farnesene (f)	0.29
Germacrene B (f)	0.03
Guaiol-1(10),11-diene (f)	0.13
1-2-Pinanol (f)	0.20
Selina-3,7(11)-diene (f)	0.08
Eudesm-7(11)-en-4-ol (f)	<LLOQ
Valencene (f)	0.19
Sum of Terpenes	9.28

Method is validated for all components except components marked with (†). Components marked with (‡) have been tentatively identified with GC-MS. Actual identity and concentration of components marked with (‡) might be different than reported value. No reference standards are commercially available for tentatively identified components.

Maximum COB Wt% is calculated assuming all CBDA is completely converted upon heating.
Maximum THC Wt% is calculated assuming all THCA is completely converted upon heating.

The test results presented above are primarily representative only of the material directly analyzed and subsequent samples collected from the same lot might not provide identical results. The West Group, Inc. uses high performance liquid chromatographic techniques.
